# Erratum to: The use of growth standards and corrective formulae to calculate the height loss caused by idiopathic scoliosis

Adrian Gardner<sup>1\*</sup>, Anna Price<sup>1</sup>, Fiona Berryman<sup>1</sup> and Paul Pynsent<sup>2</sup>

## Erratum

After publication of this article [1] the author brought to our attention that the formula of Stokes in Table 1 is incorrect. The correct formula is  $y = (1 + 0.066x + 0.0084x^2) / 10$  where  $x$  represents the mean Cobb angle of the largest two curves in the scoliosis and  $y$  the height loss in centimetres.
